

# IMMEDIATE RELEASE

*normally prescribed as required*

**Morphine:**  
Oramorph®  
Sevredol®

**Oxycodone:**  
Shortec®  
OxyNorm®

# MODIFIED RELEASE (MR)

*normally prescribed once or twice daily*

**Morphine:**  
\*Zomorph®  
MST®  
Morphgesic®

**Oxycodone:**  
\*Oxypro®  
Longtec®

Please note: where possible, the regular and “when required” opioid should be the same drug, e.g. morphine modified-release and immediate-release. Exception to this would be in postoperative patients or under guidance of acute pain service.
